25X1A5a1 [redacted], for his consideration. Since the time of your discussions on this subject last Fall with personnel of the Guided Missiles Branch, we have acquired a considerable amount of new photography which will be of interest to [redacted] in view of his group's past work on ATTIC materials related to the Moscow SAM system and his recent work in Germany. 25X1A5a1

The study outline, installation layout, and photography included in the attachments will provide [redacted] with an initial view of the problem. 25X1A5a1 [redacted] will be in Los Angeles during the week of 17 August and will contact [redacted] to discuss the problem further. 25X1A5a1 It is expected that more refined materials related to the facility layout and structure dimensions will be available at that time.
